

Mixing Tips

When you're mixing ingredients with an electric mixer:

- Read the **instructions** for the mixer carefully.
- Put your **recipe** where you can see it.
- Follow the **order** of the ingredients in the recipe.
- Set the **speed** on your mixer.
- Set the **timer** so you'll know how long to mix for.
- **Turn on** the mixer.
 - * **Never** take the mixer out of the bowl while it's on. If you do, your ingredients will **splatter** everywhere!
