

# Massachusetts Institute of Technology

## Department of Physics

Course: 8.20 —Special Relativity

Term: IAP 2021

Instructor: Markus Klute

### Problem Set 0

#### **Problem 1: Creative Project [10 points]**

The assignment is to complete a creative project relating to Einstein and / or the theory of special relativity.

The project may be a video (<10 min), poem, musical piece, artwork, animation, etc., and it may be instructional, humorous, serious, dramatic, or some combination thereof. Note that serious papers are also welcome as creative projects. You may, for example, decide you would like to learn more about a certain topic related to Einstein. Researching and writing a short paper (< 1500 words) can be a good way to do this. Or you might write a paper offering some reflections on one of his quotations.

We will evaluate creativity, quality, and effort.
