Civic Design Framework

MIT | The Move

Design For:

Design Phases	The Margins	Collaboration	Equity	Systemic Change	Ecological Networks	Analog & Digital	Ways of Expression	Healing
Framing Creating shared understanding of the problem or opportunity								
Ideating Generating possible solutions or actions								
Prioritizing Identifying preferences among viable solutions/actions								
Deciding Agreeing on paths forward and solutions to pursue								
Implementing Collaborative implementation of solution/action								
Monitoring Participating in monitoring and accountability measures
