

Has your child had an accident at home?

We need your help if:

- ★ You'd like to help children avoid accidents
- ★ Your pre-school child had an accident at home in the last year and then had to see a doctor or nurse
- ★ You're interested in first aid and safety.

We're looking for parent volunteers to help with a home safety project. It won't take a lot of your time and you may get the chance to join a free first aid advice and safety course. To find out more, speak to:

or phone/text Sarah, the researcher, on 07958 583750
