# **Drug Levels and Effects**

### **Summary of Use during Lactation**

No information is available on the clinical use of crotalidae polyvalent immune fab (ovine) during breastfeeding. Because it is a large protein molecule, the amount in milk is likely to be very low and absorption is unlikely because it is probably destroyed in the infant's gastrointestinal tract.

### **Drug Levels**

Maternal Levels. Relevant published information was not found as of the revision date.

Infant Levels. Relevant published information was not found as of the revision date.

#### **Effects in Breastfed Infants**

Relevant published information was not found as of the revision date.

### **Effects on Lactation and Breastmilk**

Relevant published information was not found as of the revision date.

### **Substance Identification**

#### **Substance Name**

Crotalidae Polyvalent Immune Fab

## **CAS Registry Number**

339086-32-7

## **Drug Class**

**Breast Feeding**
