

Rasburicase

Revised: December 3, 2018.

CASRN: 134774-45-1

Drug Levels and Effects

Summary of Use during Lactation

No information is available on the clinical use of rasburicase during breastfeeding. Because it is a large protein molecule with a molecular weight of about 34,000, the amount in milk is likely to be very low and absorption is unlikely because it is probably destroyed in the infant's gastrointestinal tract.

Drug Levels

Maternal Levels. Relevant published information was not found as of the revision date.

Infant Levels. Relevant published information was not found as of the revision date.

Effects in Breastfed Infants
