

Belatacept

Revised: December 3, 2018.

CASRN: 706808-37-9

Drug Levels and Effects

Summary of Use during Lactation

No information is available on the use of belatacept during breastfeeding. The manufacturer recommends avoiding nursing if belatacept is given. Because the drug's half-life is 8 to 10 days, it may be more than a month after a dose before the drug is absent from breastmilk.
