

Sodium Ferric Gluconate Complex

Revised: December 3, 2018.

CASRN: 34089-81-1

Drug Levels and Effects

Summary of Use during Lactation

No information is available on the use of sodium ferric gluconate complex during breastfeeding. Ferrlecit contains 9 mg/mL of benzyl alcohol, which may enter breastmilk and be absorbed by the infant. An alternate intravenous drug with more published data available may be preferred.
