

Dabrafenib

Revised: December 3, 2018.

CASRN: 1195765-45-7

Drug Levels and Effects

Summary of Use during Lactation

No information is available on the clinical use of dabrafenib during breastfeeding. Because dabrafenib is more than 99% bound to plasma proteins, the amount in milk is likely to be low. The manufacturer recommends that breastfeeding be discontinued during dabrafenib therapy and for 2 weeks after the last dose.

Drug Levels

Maternal Levels. Relevant published information was not found as of the revision date.
