# **Drug Levels and Effects**

### **Summary of Use during Lactation**

Although no information is available on the use of loracarbef during breastfeeding, beta-lactam antibiotics are generally not be expected to cause adverse effects in breastfed infants. Occasionally disruption of the infant's gastrointestinal flora, resulting in diarrhea or thrush have been reported with beta-lactams, but these effects have not been adequately evaluated. Loracarbef is acceptable in nursing mothers.
