

## Felbamate

Revised: October 31, 2018.

CASRN: 25451-15-4

## Drug Levels and Effects

### Summary of Use during Lactation

Because no information is available on the use of felbamate during breastfeeding, and because it can cause potentially fatal hematologic and hepatic toxicities, authors of authoritative reviews recommend that breastfeeding not be undertaken during maternal felbamate therapy until more safety data are available.[1][2]

### Drug Levels

*Maternal Levels.* Relevant published information was not found as of the revision date.

*Infant Levels.* Relevant published information was not found as of the revision date.

## Effects in Breastfed Infants

Relevant published information was not found as of the revision date.

## Effects on Lactation and Breastmilk

Relevant published information was not found as of the revision date.
