Pyrantel

Revised: December 3, 2018.

CASRN: 22204-24-6

Drug Levels and Effects

Summary of Use during Lactation

No information is available on the use of pyrantel pamoate during breastfeeding. It is poorly absorbed orally, so excretion into breastmilk and absorption by the breastfed infant is unlikely.[1]

Drug Levels

Maternal Levels. Relevant published information was not found as of the revision date.

Infant Levels. Relevant published information was not found as of the revision date.

Effects in Breastfed Infants

Relevant published information was not found as of the revision date.
