* Low precision; no estimate reported.

PUF = public use file, which refers to estimates produced from a NSDUH public use file (a PUF is a NSDUH restricted-use file that has undergone statistical disclosure limitation treatment); RUF = restricted-use file, which refers to estimates produced from a NSDUH RUF and published in NSDUH's detailed tables available at <http://www.samhsa.gov/data/>; SE = standard error that is associated with the estimate.

NOTE: Some 2009 RUF estimates and SEs may differ from previously published estimates due to updates (see Section B.3 in Appendix B of the *Results from the 2011 National Survey on Drug Use and Health: National Findings*).

NOTE: $Ratio\ of\ estimates = PUF\ estimate \div RUF\ estimate$; $Ratio\ of\ SEs = PUF\ SE \div RUF\ SE$.
