Developing a high performance assistant workforce in acute care: innovation, evaluation and engagement

Developing a 'toolkit' or 'repository'

karen.spilsbury@york.ac.uk

The idea of developing a 'toolkit'

⬇

Help organisations and staff to optimise the roles of assistants at Band 2 to 4

Assistants	Teams
Managers	Organisations

This raises some questions...

- Would a 'toolkit' (or repository) be useful?
- If so, who do you consider the 'audience'?
- What information would be useful?
- And in what form?

⚠️ Maintaining the 'toolkit'

What might a 'toolkit' include?

|		
Role description	Training, development, progression	Recruitment, induction
Role integration	Management	Impact (perception)

Ideas to date...

Please could you consider...

- Would a 'toolkit' (or repository) be useful?
- If so, who do you consider the 'audience'?
- What information would be useful?
- And in what form?
- Are the items for inclusion right for you?
- Would examples from practice be helpful?

1. Role description
2. Role integration
3. Training, development & progression
4. Management
5. Recruitment & induction
6. Impact (perception)
