

1

00:00:00,000 --> 00:00:00,033

2

00:00:00,033 --> 00:00:09,533

And you have to have 10 corporations ever lead to a sustainable world know you'll hear the inside scoop from a woman who's been there

3

00:00:09,533 --> 00:00:15,866

and back Anita Bork his keynote speeches from October 21

4

00:00:15,866 --> 00:00:23,399

at the 2009 gaining ground summit in Vancouver British Columbia the meeting theme was resilient city's urban strategies for

5

00:00:23,400 --> 00:00:28,433

transition times a day to bark move the audience with their presentation shifting

6

00:00:28,433 --> 00:00:33,466

corporate culture choose introduced by conference moderator Ron Abbott

7

00:00:33,466 --> 00:00:39,099

and now I take heed a strap in the cat is sad to

8

00:00:39,100 --> 00:00:48,333

my friend and a birch is probably going to last in many respects in a elegant respects Ref off of militates certainly bill most everyone else

9

00:00:48,333 --> 00:00:54,499

has already been into the podium as well as some people haven't

10

00:00:54,500 --> 00:01:02,466

any has lived in the belly of the beast for many years since C
wise inside the shell international

11

00:01:02,466 --> 00:01:07,132

trying mightily to shift the trajectory of that organization

12

00:01:07,133 --> 00:01:13,233

for some time now she has been outside of shall trying to use CF
the trajectory of

13

00:01:13,233 --> 00:01:19,366

businesses communities and other organizations

14

00:01:19,366 --> 00:01:26,166

see brains and authenticity and an energy that he is breathtaking

15

00:01:26,166 --> 00:01:35,866

please join me in welcoming idea Burke how fast I thought I'd
feel for wine elected him a liar down again all this technology
and while I

16

00:01:35,866 --> 00:01:45,566

guess I forget that does not allow Lisa can still use that it a
clean bill of health and if anybody outside of a drink

17

00:01:45,566 --> 00:01:51,432

1/2 million of my 15 minutes if you define to go get drunk

18

00:01:51,433 --> 00:01:58,933

and I don't think it's on how light while limiting kill anyone have any Inkatha conflict in the fifth

19

00:01:58,933 --> 00:02:02,133

I have ideas really grateful to be here and

20

00:02:02,133 --> 00:02:06,299

end at Banco area is that in my adopted second home

21

00:02:06,300 --> 00:02:14,533

and I was so grateful to the home again and be back here month on my Canadian friends I'm currently living in boulder on helping my fine

22

00:02:14,533 --> 00:02:20,033

get through college and wildlife are these days in a notice that

23

00:02:20,033 --> 00:02:27,666

I am decides like 124 and a dialogue to live out and F off at a figure like the air and I think the

24

00:02:27,666 --> 00:02:35,299

Nevada and I think he is and what I want to thank Allah thank everybody around here

25

00:02:35,300 --> 00:02:38,733

until I think everybody in the room were not for what you've done

26

00:02:38,733 --> 00:02:41,599

a lot for what I hope he will do

27

00:02:41,600 --> 00:02:47,666

in response to some are things that bill is shared with you and
commitment and author of the day

28

00:02:47,666 --> 00:02:50,899

because he is serving that I live

29

00:02:50,900 --> 00:02:55,566

you hear in this room because you are what is going to change

30

00:02:55,566 --> 00:02:58,232

what is happening on our planet

31

00:02:58,233 --> 00:03:05,933

mudslide to the jury's eyes a little stymied by the topicality in
and change corporate culture

32

00:03:05,933 --> 00:03:07,999

and away the

33

00:03:08,000 --> 00:03:15,500

wrongly in trouble than to believe we can do that and more and
add a little 4:49 o'clock this morning discounted test with the
limited fan,

34

00:03:15,500 --> 00:03:20,533

didn't do this I had to tell them that trap island in the valley

of the beef dying knowledge going

35

00:03:20,533 --> 00:03:25,566

on there and god bless them are trying really hard

36

00:03:25,566 --> 00:03:34,099

and it's not enough fast enough and the architectures that are in there and I'm often piazza never been a feminist optimism and

37

00:03:34,100 --> 00:03:35,800

fat and

38

00:03:35,800 --> 00:03:39,266

we are the corporate culture

39

00:03:39,266 --> 00:03:42,566

we are the corporate culture

40

00:03:42,566 --> 00:03:47,166

and we must all and that we not only ended the

41

00:03:47,166 --> 00:03:50,432

and humiliating way

42

00:03:50,433 --> 00:03:53,033

we Gotta tell you the truth

43

00:03:53,033 --> 00:04:03,666

I'm sure our National Air and FI and Sony and all these companies era is there are making this up because it's like: when a tractor

plant

44

00:04:03,666 --> 00:04:10,766

and honestly III think Mike Barrett that lie below like they had Goetz was on

45

00:04:10,766 --> 00:04:14,699

the A only make these things because the flat

46

00:04:14,700 --> 00:04:17,466

everything a warning in this room by

47

00:04:17,466 --> 00:04:19,566

both a

48

00:04:19,566 --> 00:04:22,466

new buy them because you're been intoxicated

49

00:04:22,466 --> 00:04:31,866

by advertising and by this construct that you only invaluable ethic human being I knew when you have a bunch of money in the bank and

50

00:04:31,866 --> 00:04:38,166

when you were rich and when you have a big house and when you have a whole other cars

51

00:04:38,166 --> 00:04:40,299

that is currently

52

00:04:40,300 --> 00:04:45,400

what we believe it means to be a human being that is about

53

00:04:45,400 --> 00:04:49,933

and so when I was asked what is it maintains the corporate culture

54

00:04:49,933 --> 00:05:00,266

on I had to turn that around and I had to bring into this room to construct and the reality that we are a corporate culture

55

00:05:00,266 --> 00:05:03,666

of thing and get the started bank of

56

00:05:03,666 --> 00:05:05,066

Aung

57

00:05:05,066 --> 00:05:08,832

and now I know is that you get a file that's my point

58

00:05:08,833 --> 00:05:16,699

on I usually am not I usually don't use a lot of notes and bear with me with a computer appearance on a plane I didn't pan out my

59

00:05:16,700 --> 00:05:24,600

notes on purpose and this is a proper me and I stop ringing stuff out in this be a little ugly include you put this up here and leads

60

00:05:24,600 --> 00:05:29,100

use are electrons as a convenient from electrons that they are
now more trees

61

00:05:29,100 --> 00:05:32,233

you got attacked for now let's use it

62

00:05:32,233 --> 00:05:37,933

and so I'm I always want to put this out and it will come when
you on the distributor from

63

00:05:37,933 --> 00:05:40,299

his DB and four

64

00:05:40,300 --> 00:05:43,766

end of Italy won a vote

65

00:05:43,766 --> 00:05:47,066

is only one of them in the whole human

66

00:05:47,066 --> 00:05:49,199

resolving one

67

00:05:49,200 --> 00:05:56,166

and we are the most intelligent beings in 15 on this one island
and space

68

00:05:56,166 --> 00:06:00,899

and it's up to us we are responsible for where we're at today

69

00:06:00,900 --> 00:06:04,400

and where we can possibly be in the future

70

00:06:04,400 --> 00:06:07,766

hour show you what a corporate culture

71

00:06:07,766 --> 00:06:12,566

rather than a loving peaceful culture looks like right

72

00:06:12,566 --> 00:06:16,766

and a leash areas with you some information from Chris Hodges today

73

00:06:16,766 --> 00:06:22,899

he says we think our consumption of fossil fuels we can use less water

74

00:06:22,900 --> 00:06:32,333

we can banish plastic like an afternoon to do today we can install can't plant for let arrested light bulbs weeding compost in our backyard

75

00:06:32,333 --> 00:06:38,666

but unless we dismantle the corporate states all those actions

76

00:06:38,666 --> 00:06:47,432

will be just as ineffective as the ghost dance shirts and on by first base and lawyers to protect themselves

77

00:06:47,433 --> 00:06:51,599

when the bullets of white soldiers at wounded knee

78

00:06:51,600 --> 00:06:55,866

or the oil and natural gas industry the coal industry

79

00:06:55,866 --> 00:07:04,732

in arms and weapons manufacturers industrial of arms the poorest nation industries the automotive industry

80

00:07:04,733 --> 00:07:07,433

and chemical plants will not

81

00:07:07,433 --> 00:07:19,566

willingly accept their own expansion corporations will continue and must continue by the very nature of this system

82

00:07:19,566 --> 00:07:24,766

to cannibalize the planet for the sake of money

83

00:07:24,766 --> 00:07:29,999

and we are: in the eighth with every choice we may

84

00:07:30,000 --> 00:07:33,933

every day and what we choose to buy

85

00:07:33,933 --> 00:07:42,233

orchard art and transportation choices and our own blind tasting of the dollar when India to relatives statistics about that didn't understand

86

00:07:42,233 --> 00:07:47,766

the comparative analysis because as a whole lot going on in the

world right now where

87

00:07:47,766 --> 00:07:53,332

people are like a cannon compost and the famous amid the
decimated the bat

88

00:07:53,333 --> 00:08:01,333

against limited numbers about how effective those beautiful and
important jesters are going to be the data is down to the
environment by

89

00:08:01,333 --> 00:08:06,666

human household is minuscule compared to the damage done by
corporations

90

00:08:06,666 --> 00:08:11,366

municipalities and individuals use 10% of the nation's water

91

00:08:11,366 --> 00:08:17,466

while the other 98 percent is consumed by agriculture and
industry

92

00:08:17,466 --> 00:08:21,432

individual consumption of energy accounts for about 1/4

93

00:08:21,433 --> 00:08:27,833

of all the energy consumed the other 75% is consumed by
corporations

94

00:08:27,833 --> 00:08:31,533

municipal waste accounts for only 3%

95

00:08:31,533 --> 00:08:41,899

of the total waste reduction in the United States we can and should win more simply that it will not be enough that we would do not radically

96

00:08:41,900 --> 00:08:46,600

transform the economic structure of the industrial world

97

00:08:46,600 --> 00:08:51,366

we heard also about people oil peak everything

98

00:08:51,366 --> 00:08:55,532

and also the status of resource availability on the planet

99

00:08:55,533 --> 00:09:04,333

and a different Dr. E's and mike great friend Rex Wyler is allowed many uses slide inundating put up a setup of things that we

100

00:09:04,333 --> 00:09:10,233

must do right now and I know which can appeal impossible many of you might say, she's made

101

00:09:10,233 --> 00:09:16,133

a lay-up to do that but there's no way we can put my car court to lift the day that we can

102

00:09:16,133 --> 00:09:17,866

any pearl date

103

00:09:17,866 --> 00:09:25,732

we don't have any lane highway one are close to the more we can do this and these are targets and these are requests and use mother

104

00:09:25,733 --> 00:09:33,599

of a class that acted on the map this isn't politics and politically agnostic and the businesses

105

00:09:33,600 --> 00:09:35,833

it's all about the numbers for me

106

00:09:35,833 --> 00:09:40,266

in L and quite frankly I always tell people if this is really not true

107

00:09:40,266 --> 00:09:43,232

family as a moral responsibility to tell me

108

00:09:43,233 --> 00:09:45,166

and relieve my suffering

109

00:09:45,166 --> 00:09:53,132

and that of everybody else I mean come on III am I right after being political wire around environmental issues I just wanna survive

110

00:09:53,133 --> 00:09:56,999

in an open when the kids to survive in a wannabe grandma

111

00:09:57,000 --> 00:10:00,166
and I know we're back in our corporate structure

112
00:10:00,166 --> 00:10:03,999
and a collision as a corporate culture

113
00:10:04,000 --> 00:10:08,566
is the sole thing that is destroying their meal and

114
00:10:08,566 --> 00:10:17,399
be ready for the nail biting wit and when IE send me off like it
that way but the man says this is what we have to do

115
00:10:17,400 --> 00:10:20,266
we have to eliminate cars and build public transport

116
00:10:20,266 --> 00:10:26,966
Illini via by example of that you're writing panel recently had a
barrel to get the \$10,000 to make electric cars

117
00:10:26,966 --> 00:10:30,232
are resource limitations are so great right now

118
00:10:30,233 --> 00:10:32,399
that that is frightening to me

119
00:10:32,400 --> 00:10:38,033
that money should have gone into solar powered electric public
rail transport

120

00:10:38,033 --> 00:10:39,833
ball stop

121
00:10:39,833 --> 00:10:41,433
no more cars

122
00:10:41,433 --> 00:10:43,399
thank you

123
00:10:43,400 --> 00:10:46,033
this topic

124
00:10:46,033 --> 00:10:49,866
and Bernhard basis that the production and builds soils

125
00:10:49,866 --> 00:10:53,066
buildings soil spiritually

126
00:10:53,066 --> 00:11:03,066
is a man and woman's greatest responsibility on the plan which
the whole back to that saw was mostly doing here

127
00:11:03,066 --> 00:11:07,966
mean you stabilize and reduce the human population

128
00:11:07,966 --> 00:11:11,299
and that's been a com for women's rights

129
00:11:11,300 --> 00:11:13,366
and contraception

130

00:11:13,366 --> 00:11:16,599

I'm not getting into the issues of

131

00:11:16,600 --> 00:11:22,433

abortion in all those sorts of things but I am going to get into the issue of empowering women

132

00:11:22,433 --> 00:11:28,333

first and foremost the right to the to their decisions about their own bodies

133

00:11:28,333 --> 00:11:34,499

into their right to live in a world that isn't violent against them with rape and pillage

134

00:11:34,500 --> 00:11:44,600

and that we are recognized and Gannon as are as Indian Life givers on this planet and what you guys to think about that for men and

135

00:11:44,600 --> 00:11:51,333

women give line and we will take advantage of their respective us a promise

136

00:11:51,333 --> 00:12:00,366

and we deserve that respect the famine and everyone says owner rise up the women have to be there to stop beating this out latest in a

137

00:12:00,366 --> 00:12:09,399

popcorn these modest breeze and listless and lettuce of rights
for our own bodies we need to reassert you emissions by 80%
immediately

138

00:12:09,400 --> 00:12:16,666

if Anderson to see these new numbers that are bouncing around I
worded sheller national I was an adviser to the senior committee

139

00:12:16,666 --> 00:12:23,966

managing directors on the issue the climate changes in ability
and we're doing our initial research and this was 1011 years ago

140

00:12:23,966 --> 00:12:32,099

and at that time and are modeling with MIT before we had this new
information from the international panel on climate change that

141

00:12:32,100 --> 00:12:37,533

things are happening 20 years basted in the anticipated we send
an inside the industry

142

00:12:37,533 --> 00:12:40,899

that we damn well better handle the 320

143

00:12:40,900 --> 00:12:47,766

and I can to come down off the mound after being down a bit out
of the corporate world bird for 10 years and come down and I'm on
stage

144

00:12:47,766 --> 00:12:52,366

preparation and am thinking how can the baselines 2005 now

145

00:12:52,366 --> 00:12:54,732
what happened in 1990

146

00:12:54,733 --> 00:13:01,966

you know what that what happened all those amazing valentines and then they also know how did it seem that and the stunning to make

147

00:13:01,966 --> 00:13:06,799

a lot of money promised fast and hard coded I stick a needle in my eye I'd done it and seeing

148

00:13:06,800 --> 00:13:11,666

if I were a bad Data Technology worker refineries

149

00:13:11,666 --> 00:13:14,099

all over the world and

150

00:13:14,100 --> 00:13:25,500

reducing the carbon what parade of the refining capacity of shell International Worldwide can be done with a Capital Investment ratio that

151

00:13:25,500 --> 00:13:33,100

resulted in 83% return in 2.2 years so take the profit voice that skidded into their

152

00:13:33,100 --> 00:13:35,800

and in addition to that

153

00:13:35,800 --> 00:13:39,133

they can also drive innovation

154

00:13:39,133 --> 00:13:44,533

and reduces that that it makes the money they're needed role from while they just need to

155

00:13:44,533 --> 00:13:49,966

make their card operations more efficient it's a \$60,000,000,000 opportunity

156

00:13:49,966 --> 00:13:52,599

annually a long for them

157

00:13:52,600 --> 00:13:58,733

to win a cry and scream and yell it the political edge of the political debates and tell you that it's been a destroyed the economy you're all

158

00:13:58,733 --> 00:14:02,833

due to go broke it could be worse than ever before

159

00:14:02,833 --> 00:14:07,466

tell them that's a lot and don't let them Vallejo

160

00:14:07,466 --> 00:14:09,832

because it's not true

161

00:14:09,833 --> 00:14:15,266

and they can do it and they can do it in next year's capital allocation budget and we need to

162

00:14:15,266 --> 00:14:20,699

demand that from them because we are the corporate culture
philistines our culture

163

00:14:20,700 --> 00:14:28,100

we needed repair this affair but a battered energy everything
that we design if we simply used energy return of energy invested
of the

164

00:14:28,100 --> 00:14:33,066

screen for every Capital Investment Vietnam War paramour road

165

00:14:33,066 --> 00:14:36,566

and decision about whether to put in rail and build more highways

166

00:14:36,566 --> 00:14:42,266

the answers would be very clear to bust and we would be
carbonized this economy

167

00:14:42,266 --> 00:14:46,232

and the timeframes necessary for our survival

168

00:14:46,233 --> 00:14:54,533

and is simple it's like an underwriting the inner page Manual to
tell you how to calculate triple bottom line in all the service
that just add

169

00:14:54,533 --> 00:15:02,833

energy return on energy invested into the current ROI
calculations rail sample theirs are solvable

170

00:15:02,833 --> 00:15:09,333

out we needed 100% recyclable materials and energy and soil from organic waste will stop

171

00:15:09,333 --> 00:15:14,733

ecological building codes the palms insulate brilliant idea see around that we need to

172

00:15:14,733 --> 00:15:20,166

preserve all farmland and all the artists and plant trees

173

00:15:20,166 --> 00:15:23,899

this is critical to our survival

174

00:15:23,900 --> 00:15:31,400

me to preserve wilderness diversity symbiosis not very little at a burden for like crazy right now

175

00:15:31,400 --> 00:15:35,633

and we need to reduce the consumption that standard for me I get in a Manon Dvorak grew

176

00:15:35,633 --> 00:15:39,866

up with an elected its take every once in awhile believe me

177

00:15:39,866 --> 00:15:41,566

but we Gotta do it

178

00:15:41,566 --> 00:15:45,666

right this that's another thing to stop this

179

00:15:45,666 --> 00:15:48,866

on the need to fill up repair provides

180

00:15:48,866 --> 00:15:56,699

one of the things I'm really asking urban locations and coastal areas is to really embraced the fact that your PC and large scale

181

00:15:56,700 --> 00:16:01,966

relocation of your populations the next 5 to 10 years

182

00:16:01,966 --> 00:16:03,699

large scale

183

00:16:03,700 --> 00:16:10,433

and if there's any more important planning discussion that these 2 to 1 urgently a suburb in a managed the relocation of massive

184

00:16:10,433 --> 00:16:14,933

amounts of climate change refugees from the coastal communities

185

00:16:14,933 --> 00:16:17,899

to the inner portions of artwork of

186

00:16:17,900 --> 00:16:21,500

the daring real trusting the planning process

187

00:16:21,500 --> 00:16:28,100

10 years will be lucky if we can get it done in 10 years it's a

very laborious bureaucratic process

188

00:16:28,100 --> 00:16:37,266

of weenie global education letters in building we need to localize I can and embraces enough we need to localize and build resilient

189

00:16:37,266 --> 00:16:43,366

communities the national and international political process in system cannot move fast

190

00:16:43,366 --> 00:16:49,499

enough and Emily enough to deliver on the agenda and assistance conditions

191

00:16:49,500 --> 00:16:54,900

that are rapidly bearing down opponents this pass to be resolved at the local level

192

00:16:54,900 --> 00:17:01,766

Vancouver thesis at the CIA to limit that some forcible in its own city

193

00:17:01,766 --> 00:17:04,732

they get this to 80%

194

00:17:04,733 --> 00:17:09,966

we need to do it at the municipal and the county and the provincial level

195

00:17:09,966 --> 00:17:12,332

it will not happen fast enough

196

00:17:12,333 --> 00:17:16,433

in those other architectures not because people don't have the well

197

00:17:16,433 --> 00:17:21,833

but because the process itself the bureaucratic process itself

198

00:17:21,833 --> 00:17:27,333

is inhibiting to get a regulation past and have due process and don't have public opinion and

199

00:17:27,333 --> 00:17:32,833

that everybody's employed a city where from 5 to 7 years

200

00:17:32,833 --> 00:17:35,266

we are having come a time

201

00:17:35,266 --> 00:17:38,799

and more importantly with going to have to open to each other

202

00:17:38,800 --> 00:17:40,800

and take care of each

203

00:17:40,800 --> 00:17:44,633

deeply impassioned

204

00:17:44,633 --> 00:17:53,466

and then alone now into something that I think is important and

the only way that we're going to change corporate culture

205

00:17:53,466 --> 00:17:55,666
and All-Star when Martin Luther king

206

00:17:55,666 --> 00:18:02,799
I door and that an event are fine tuning power has outrun our
spiritual power

207

00:18:02,800 --> 00:18:06,600
we have died in missiles and misguided men and women

208

00:18:06,600 --> 00:18:10,733
are hope for creative living lives in our ability

209

00:18:10,733 --> 00:18:15,799
to reestablish the spiritual needs of our lives

210

00:18:15,800 --> 00:18:22,766
and personal character and social gaffes without this spiritual
and moral Rio wakening

211

00:18:22,766 --> 00:18:29,766
we sell destroy ourselves and the misuse of our own instrument

212

00:18:29,766 --> 00:18:33,399
and so high we changed our corporate culture

213

00:18:33,400 --> 00:18:37,433
data we do that, we addressed this

214

00:18:37,433 --> 00:18:43,366

I believe fully that it is a function of learning to forgive ourselves

215

00:18:43,366 --> 00:18:45,399

and learning to forgive

216

00:18:45,400 --> 00:18:51,100

others and the forgiveness and did the deep level for what we have done

217

00:18:51,100 --> 00:18:54,000

is critical to our survival

218

00:18:54,000 --> 00:18:58,533

may read a story about forgiveness to inspiring

219

00:18:58,533 --> 00:19:00,266

it was an elderly black woman

220

00:19:00,266 --> 00:19:01,399

brought

221

00:19:01,400 --> 00:19:04,633

by the truth and reconciliation commission

222

00:19:04,633 --> 00:19:11,199

base to base that the man Mr. Van Der Rohe what can best in the savage torture and murder

223

00:19:11,200 --> 00:19:15,566

of both the woman's son and her husband a few years earlier

224

00:19:15,566 --> 00:19:26,632

than finest was picking up the old woman had been made to what Mr. Husband's death the last word sober-and then father forgive them

225

00:19:26,633 --> 00:19:33,166

one of the members of the commission turned her announced how you believe justice should

226

00:19:33,166 --> 00:19:39,732

be done to this man was inflicted such suffering on you so brutally destroyed their family

227

00:19:39,733 --> 00:19:43,433

the old woman replied I won three things

228

00:19:43,433 --> 00:19:47,333

I want a purse be taken to the place for my husband's body was burned so that I can

229

00:19:47,333 --> 00:19:51,266

gather at the dust and give this remains a decent burial

230

00:19:51,266 --> 00:19:57,432

he stopped collecting herself and then win on my husband and son were my only family

231

00:19:57,433 --> 00:20:04,766

I want secondly therefore for Mr. Van Der Rohe it become my son

232

00:20:04,766 --> 00:20:10,366

I would like for him to come twice a month to the ghetto and spend a day with me so that I

233

00:20:10,366 --> 00:20:15,966

can pour out to him whenever love I have still remaining within me

234

00:20:15,966 --> 00:20:24,099

and finally I want a third thing I would like Mr. Band world to know that a offer him my forgiveness

235

00:20:24,100 --> 00:20:27,366

because Jesus Christ died to forgive

236

00:20:27,366 --> 00:20:33,566

this is also the wish of my husband and soul of a timely as someone to come to my side

237

00:20:33,566 --> 00:20:43,899

and lead me across the courtroom so that I can take Mr. Van Der broken my arms embrace him and let him know that he is truly forgiven

238

00:20:43,900 --> 00:20:47,600

assistance came to help the old black woman across the room

239

00:20:47,600 --> 00:20:51,166

Mr. Van Der Rohe overwhelmed by what he had heard

240

00:20:51,166 --> 00:20:52,799

thank you

241

00:20:52,800 --> 00:20:59,933

and the CD and those in the courtroom friend's family neighbors
all victims of decades of repression

242

00:20:59,933 --> 00:21:01,866

and injustice

243

00:21:01,866 --> 00:21:04,532

began missing amazing grace

244

00:21:04,533 --> 00:21:08,499

of sweet the sound that saved a wretch like me

245

00:21:08,500 --> 00:21:11,766

you can hear the story of the deeply moved

246

00:21:11,766 --> 00:21:18,232

by it is still think that it is relevant that its relevance to
the gritty problems of world affairs

247

00:21:18,233 --> 00:21:23,299

and the collapse of our ecosystems and the errors is marginal

248

00:21:23,300 --> 00:21:25,666

this is a mistake

249

00:21:25,666 --> 00:21:30,366

anyone who has been involved with the Palestinian Israeli in the
canyon Pakistan

250

00:21:30,366 --> 00:21:35,066

complex the two most dangerous conflicts in our world

251

00:21:35,066 --> 00:21:36,799

must know by now

252

00:21:36,800 --> 00:21:40,100

that any and surely political solution

253

00:21:40,100 --> 00:21:45,500

and changing the boundaries or the exchange of money or power

254

00:21:45,500 --> 00:21:50,433

as only a very small chance of working

255

00:21:50,433 --> 00:21:53,433

inside extreme situations

256

00:21:53,433 --> 00:21:58,899

and did it and extreme six are situations carriage rides
increasingly

257

00:21:58,900 --> 00:22:07,533

all rounds of our world only extreme solutions born from another

dimension of truth and compassion

258

00:22:07,533 --> 00:22:12,066
and any real chance of being affected

259

00:22:12,066 --> 00:22:20,066
there will be no end to the potential for a more fish stocks
disappearing polar bears going extinct

260

00:22:20,066 --> 00:22:23,932
and human beings starving to death every day

261

00:22:23,933 --> 00:22:31,899
until a great many people on both sides and made the amazing and
humbling journey

262

00:22:31,900 --> 00:22:36,633
of the elderly black woman to end conditional forgive

263

00:22:36,633 --> 00:22:39,799
not from a position of weakness and if the

264

00:22:39,800 --> 00:22:49,466
but from a mysterious inner experience of the nature of god as
being one with all embracing mercy

265

00:22:49,466 --> 00:22:51,899
well dauntingly difficult

266

00:22:51,900 --> 00:22:55,500

second journey is by no means impossible

267

00:22:55,500 --> 00:23:03,933

countless numbers of anonymous and so called ordinary beings and made it throughout history and are making it now

268

00:23:03,933 --> 00:23:07,199

such a height of unconditional forgiveness

269

00:23:07,200 --> 00:23:15,366

and embrace is also essential to the success of all major activism adventures in our world

270

00:23:15,366 --> 00:23:26,366

savage denunciation of corrupt corporations and lazy politicians and in the media and then was systems and cold evil

271

00:23:26,366 --> 00:23:31,432

that want to keep exploiting the earth may have troops in its fury

272

00:23:31,433 --> 00:23:35,533

that it has two main disadvantage is impractical affairs

273

00:23:35,533 --> 00:23:42,299

the excitement of projecting on to others our own awning knowledge to darkness

274

00:23:42,300 --> 00:23:46,533

blinds us from seeing just how implicated we are

275

00:23:46,533 --> 00:23:54,933

and ensures that the ad as advocacy of our case increases rather than heels resistant

276

00:23:54,933 --> 00:23:59,733

human beings are never going to be convinced to change their ways

277

00:23:59,733 --> 00:24:03,466

by other human beings that tried to humiliate them

278

00:24:03,466 --> 00:24:06,532

to self righteous content

279

00:24:06,533 --> 00:24:08,933

in almost every case

280

00:24:08,933 --> 00:24:12,899

such content a condemnation only reinforces

281

00:24:12,900 --> 00:24:16,066

the behavior that is trying to an

282

00:24:16,066 --> 00:24:20,532

when someone is accused of something they know they are guilty of

283

00:24:20,533 --> 00:24:29,466

by someone who they can see as content of them they nearly always retreat even further into their self destructive behavior

284

00:24:29,466 --> 00:24:34,832
or if they do change is from a year or even hypocrisy

285
00:24:34,833 --> 00:24:37,933
and not from their own true

286
00:24:37,933 --> 00:24:42,833
all close with two things one I'm inviting you

287
00:24:42,833 --> 00:24:48,333
to claim your summer entity from the corporate culture

288
00:24:48,333 --> 00:24:51,466
reclaimed your community

289
00:24:51,466 --> 00:24:53,732
and in your community

290
00:24:53,733 --> 00:24:56,099
perilously urgently

291
00:24:56,100 --> 00:24:59,566
transform where you live your neighborhood

292
00:24:59,566 --> 00:25:02,299
into one sovereign

293
00:25:02,300 --> 00:25:16,866
vibrant sustainable states of love and peace that is not so
dependent on the corporate state meet in fact that fact

294

00:25:16,866 --> 00:25:25,332

you've just heard a keynote presentation from the 2009 gaining ground summit in Vancouver British Columbia a little bit 20th to 20 seconds

295

00:25:25,333 --> 00:25:30,999

the meeting theme was resilient city's urban strategies for transition times but was immune

296

00:25:31,000 --> 00:25:36,666

to bark formerly a top adviser to shell oil international aid when shifting corporate culture
